

# ***Sage Advice from the Roundhouse....*** **Hard-Working Natives** **Highly Efficient Plants that Perform**

The following is a list of native plants that you can put in the ground and virtually forget about except to enjoy their beauty and marvel at their efficiency. These plants work for a living, and really earn their place in your landscape. You can choose to do as little or as much maintenance on them as you like, and they will reward you year after year. Some are groundcovers that are great for slopes, some make great accents or fillers and some are excellent screens for concealing whatever may need it...all are drought tolerant. Take your pick!
